11-18/21-1982, page 1

I got the 3:15 as usual and rested on the bus, as I frequently do. I used to work and read as I traveled by bus but of late I have been resting--it's the only time that I can't do other things and so it is good to rest. When I arrived in Scranton, WSP was there, of course. We chatted about Steamtown on the way to Carbondale and WSP gave me a report on what happened during my absence from Carbondale. Pork chops and peas for dinner. There was an article in the newspaper about the meeting at 7:30 and in the article it states that the meeting of the CHS will be presided over by SRP and so it was. I wore a tie and I was glad I did. I think that I shall wear a tie to all future meetings of the CHS. I almost always did wear a tie to the CRCCH meetings but I will make it a practice to do so at CHS meetings. When I drove down River Street to the meeting I could see the lights on on the second floor of City Hall and that was very nice. My colleagues were assembled in the Council Chambers when I arrived: ten or twelve members. John Revak was there and showing D&H maps to JVB and others and Anne M. Muldoon was there to give the old CHS checkbook and savings account book to Oliver Shifler. Both of them left before the meeting began--they both had other commitments for the evening. Nan Daniels read the minutes of the dinner meeting on the sixth--it is very nice to have someone else who records information. She read the minutes and that was very nice. The meeting was devoted largely to administrative matters. The various accounts of the CHS: all previous bank accounts will be closed and a new account will be opened at the Liberty Bank. We decided to hold our meeting at St. Joseph's Hospital in January or February. Dr. Coleman will make the arrangements. We decided to have a work session on Saturday in the late afternoon. JVB and Tomaine and RTP and I. We will hold our first board meeting in January. The Board will make some kind of decision on Life Memberships. Nan Loftus says that \$100 is a life membership for an individual; \$150 for a couple. We decided that all memberships will be due on 11-06 of each year. Nan Loftus will go after those who are delinquent in renewing their memberships. The Shiflers showed up with some slides and screen in the event that we did not have sufficient materials for a meeting. It turned out that we had so much business to conduct that we didn't have time for the slides. The Shiflers showed us the Carbondale stationery that was made up some years ago--it has City Hall on it and it is tinted grey/blue. I like the idea of the building's appearing on stationery although I am not terribly fond of the blue/grey color tinting. The box of the stationery in question that the Shiflers have came to them from Mrs. Rebecca Colville. SRP handed out the Tiffany fact sheet and it was well received, especially by the Shiflers. I brought up the idea of holding a "concert" in conjunction with Mike Andrews (The Casino Hall, 30 7th Avenue, Carbondale) at The Casino Hall and Sue Stephens thinks it is a good idea and that pleases me. She also thinks that we should a Spring Cotillion and that strikes me as a good idea--give the world a pretext for putting on fancy dress and they will do it. I suggested that we hold a meeting in The Casino Hall and get our facts straight on the building and then have, at a later date, our "concert." The idea will be tossed about at upcoming meetings, and then, hopefully, we will do it. We will sponsor, with The Casino Hall, a concert by a local band/rock group. We will the money taken in at the door (perhaps \$1.00 a head). During the times when the band is not playing (the "breaks"), SRP, dressed in top hat, white tie and tails, will give ten minutes of history to the as-
